

**Bachelor of Arts in Teaching:  
Spanish Education  
2022-2023 Assessment Report**

**Program Description**

The Bachelor of Arts in Teaching English Education, French Education, German Education, Spanish Education, and Social Studies Education is a relatively new degree program in education, approved in 2018, leading to licensure in the respective content areas (K-12 in foreign languages or 7-12 in English and Social Studies). The programs focus on developing reflective practitioners based on the constructivist perspective that teachers are life-long learners, reflective practitioners, and scholar researchers. The coursework is designed to develop these attributes so that students graduate as effective teachers with the knowledge, skills, and dispositions to engage all students with meaningful and authentic instruction.

Students are classified as Pre-BAT students the first two years of their undergraduate careers. Students apply for admission to the BAT in the spring semester of their sophomore year. 30 students were admitted to the BAT program for 2023-2024 with an additional 17 students admitted as pre-BAT (sophomores/juniors). Following the first graduates of the program in 2021 and 2022, 20 students graduated in spring 2023 (6 in English education, 11 in social studies education, 2 in Spanish education, and 1 in German education).

The Bachelor of Arts in Teacher Education program goals are based on the Four Domains of the Danielson Framework for Teaching (TESS—Teacher Evaluation Student Success), CAEP accreditation standards, and the COEHP conceptual framework:

1. *Knowledgeable about Content and Pedagogy:* Candidates will possess general knowledge, content knowledge, pedagogical knowledge, and professional knowledge to be effective preservice educators. They must know how to access, use, and generate knowledge. In order to be current, they must be inquiring and up to date on new knowledge in their content, pedagogy, and school systems.
2. *Skillful in Practice:* Candidates will be skillful in the pedagogy required to be an effective preservice educator as demonstrated through planning, implementing, and modeling best practices including best technology practices.
3. *Supportive in Developing the Whole Student:* Candidates will create a caring learning environment for all students. This will include being caring, supportive, and responsive to the diverse backgrounds students bring to the classroom and school. The ability to communicate and collaborate with groups of colleagues and others who contribute to the student's education such as families and communities is also essential.
4. *Professional in Actions:* Candidates will inquire and seek to improve their practice through participation in professional communities. This involves staying current with educational research and working with appropriate professional organizations to better their profession. The candidates will demonstrate ethical behavior in all aspects of their multi-faceted career.
