

Special Education Transition Services Graduate Certificate (SPTSGC)

2021-2022

Annual Academic Assessment Report

Results of analysis of assessment of Student Learning Outcome

Results from last year's assessment in table below

Graduate Certificate: 8 Enrolled, 11 Graduated

Any changes to degree/certificate planned or made on the basis of the assessment and analysis

There were no changes in the degree plan based of assessment and analysis. There were minor changes made in some courses as noted in table below.

Teaming for Transition 2.0 grant was submitted and funded by US Department of Education in 2021. Programs included in interdisciplinary program in addition to special education include vocational rehabilitation and social work. Changes to program will include restructuring of timing of courses. In addition, Disability Policy course will be reflected in Legal Aspects course for this transition certificate in order to expand knowledge across disciplines.

Any changes to the assessment process made or planned.

Plan to pilot post-graduation assessment and employer assessment. Assessments for scholars in Teaming for Transition grant aspects of the program remain the same.

Academic Assessment Plan

Program Goals (3-4)

Program students will pursue an in-depth study of the transition process for students with disabilities including transition plan development, work based learning opportunities, developing skills in self-advocacy and self-determination using evidence-based practices, family engagement, collaborative program planning and evaluation.

Student Learning Outcomes (6-8)

Program objectives include the preparation of future special educators to (based on Council for Exceptional Children standards) and listed in objectives in table below.

Process for Assessing each Student Learning Outcome

| Objectives | Assessment | Changes Made/Planned | Assessment Made/Planned |
|--|---|--|---|
| <p>1. Students will demonstrate knowledge and implementation of evidence-based transition research and practices by identifying EBP practices and applying these based on knowledge of an individual and their needs. Related to CEC Initial Preparation Standard Dev Disabilities and Autism 1, 2, 3, 5</p> <p>2. Students will link known challenges faced by youth with disabilities and their families in school-to-work adulthood transition to evidence based supports and services. Related to CEC Initial Preparation Standard Dev Disabilities and Autism 1, 2, 3, 5, 7</p> <p>3. Students will determine appropriate school-to-adulthood assessments for individuals, implement assessments, analyze results and and plan accordingly based on their observation of a young adult with disabilities. Related to CEC Initial Preparation Standard Dev Disabilities and Autism</p> | <p>All students passed key assignments across coursework.</p> <p>All students increase perspective of efficacy in use of transition based competencies as per analysis of data for Teaming for Transition grant</p> | <p>Based on program evaluation from Dr. Val Mazzotti for Teaming for Transition built in more content representing first-hand experiences of youth with disabilities including interviews from youth in Northwest Arkansas</p> <p>Incorporating use of virtual technology across courses to develop opportunities for collaborative learning</p> | <p>Planned analysis of use of virtual technology across SPTSGC coursework refocused due to funding of Teaming for Transition 2.0</p> <p>Planned revision of 3 courses to incorporate standards from across disciplines: Family and Professional Partnerships, Legal Aspects, and Teaching Students with High Need Disabilities.</p> |

| <p>outcomes for individuals with exceptionalities and their families.</p> <p>16. Special education specialists actively participate in professional development and learning communities to increase professional knowledge and expertise.</p> | | | |
|--|--|--|--|

Timeline for assessment and analysis

Key assessments are collected throughout coursework and analyzed by course instructor. Student knowledge of key competencies are evaluated annually by project evaluator.

Means of assessment and desired level of student achievement

Key assessments in courses are collected and evaluated during key courses across learning blocks.

Reporting of results

Evaluation conducted of student knowledge of transition competencies, engagement in collaboration, perspectives on interdisciplinary learning. These are reported at annual advisory review.
