

Department of Health, Human Performance and Recreation
Masters of Science / Community Health Promotion
As of May 31, 2018

Academic Assessment Plan

Program Goals

1. To recruit quality students in graduate programs.
2. To strive to recruit and retain diverse study/faculty population.
3. To offer quality graduate courses within Community Health Promotion.
4. To seek external funding to support research and graduate assistants.
5. To promote faculty excellence in areas of teaching and advising.
6. To be involved in professional organizations and active conference presenters.
7. To continue to update technology (computers) to assist faculty and students in areas of teaching, research, service, and advising.
8. To produce and publish quality research.
9. To prepare program graduates with the knowledge, skills, and experiences needed to obtain employment and be successful in the field.
10. To continue to be aware of changing requirement and certification standards in the field.
11. To be sensitive to student needs and concerns, and seek feedback from students regarding the program.
12. To periodically evaluate the effectiveness of the program and faculty within the program.
13. To continue to update library holdings and acquisitions necessary to support learning and scholarly activities.
14. To continue to track and obtain program feedback from graduates.

Student Learning Outcomes

1. Students will be able to identify the major health behavior theories and discuss modes of application.
2. Students will be able to design a program and identify methods of evaluation.
3. Students will be able to use public health data for surveillance and programmatic decision making.

Process for Assessing each Student Learning Outcome

1. Timeline for Assessment & Analysis

Yearly

2. Means of Assessment & (Desired Level of Student Achievement)

Direct Assessment:

Mean GPA in PBHL 5613 Principles of Epidemiology (>3.0)

Mean GPA in PBHL 5563 Public Health Principles & Planning (>3.0)

Mean GPA in PBHL 5573 Principles of Health Education (>3.0)

Mean GPA in PBHL 5533 Models and Theories of Health Behaviors (>3.0)

Indirect Assessment:

Percentage of students who pass their comprehensive exams (>80%)

3. Report of results

See Annual Academic Assessment Report below

**Department of Health, Human Performance and Recreation
Masters of Science / Community Health Promotion**

Annual Academic Assessment Report 2020-2021

Results of analysis of assessment of Student Learning Outcomes following timeline stated above

Assessment	Outcome
Mean GPA in PBHL 5563	Sp 4.0
Mean GPA in PBHL 5573	Fall 3.85
Mean GPA in PBHL 5533	Fall 4.0
Percentage of students who pass their thesis defense	100% (1 out of 1)
Percentage of students who pass their comprehensive exams	100% (6 out of 6)

Any changes to degree/certificate planned or made on the basis of the assessment and analysis

All University of Arkansas requirements needed to begin our Master in Public Health (MPH) have been met. It will begin fall 2021. With the introduction of the MPH, the program as a whole (B.S. & MPH) will need to be accredited by the Council on Education for Public Health (CEPH). We have an Initial Application Submission (IAS) approved by CEPH to move forward. Accreditation goal is 2023.

Any changes to the assessment process made or planned

Assessments will change once we are an accredited MPH program.
