

**Program Assessment Report**  
**DBCALFS ANSC PhD Program**  
**University of Arkansas**  
**Academic Year 2024-2025**

**1. Animal Science Department, B111 AFLS, 575-3745**

**2. Department Mission:**

The Department of Animal Science shall be a leading authority of animal agriculture by means of innovative research, teaching and extension programs for all Arkansans and the world.

**3. Program Goals:** The Department of Animal Science will 1) perform research from discovery to application that benefits the production efficiency, animal health/well-being, food safety/security, and sustainability of animal agriculture, 2) recruit, educate, and prepare for the future, a new generation of citizens that will provide expertise in food production, animal health/well-being, as well as human health and nutrition, and 3) provide research-based livestock and forage information through non-formal educational methods for the sustainability and management of agricultural production systems to improve Arkansans quality of life.

**4. Student Learning Outcome #1:**

Graduate students will demonstrate a basic knowledge of statistics, an in-depth knowledge of their specific thesis research area and a general knowledge of other research in the Department. Areas of emphasis may include animal nutrition, genetics, physiology, muscle foods, parasitology and forages.

**A. Assessment Measure 1**

- Completion of the dissertation and successful defense to the faculty, turning in dissertation to graduate school.
- Indirect
- Report on number of graduates was obtained from Institutional Research

**Summary of Findings:**

- **2 students completed a dissertation defense and graduated.**

**5. Student Learning Outcome #2**

Graduate students will demonstrate problem solving skills.

**A. Assessment Measure 2**

- During the final dissertation defense students will be assessed using rubrics by the faculty members serving on their respective graduate committees. Scores on the oral rubric in the 'Overall breadth of knowledge' and 'Quality of response to questions' sections, and scores on the written rubric in the 'Overall quality of science', 'Contribution to discipline', and 'Experimental design implementation and interpretation' sections will be combined for an overall score for this learning outcome. Rubrics are included on the final pages of this report.
- Direct

- Major professor is responsible for distributing rubric during defense and collecting the data

#### Acceptable and Ideal Targets

- The target is that a majority of candidates at least ‘Meets Expectations Well’ on the rubric. Ideally all candidates will ‘Meet Base Expectations’.

#### Summary of Findings:

- Both students had oral and written communication rubrics returned by at least 1 committee members (a range of 1 to 4 committee members scored each student on each rubric). This response rate of 100% of students assessed the 2<sup>nd</sup> year in a row for the department. The average score for the measurements used to assess problem solving was 3.0 (3 is “Meets Expectations Well”). In this report, because there are only 2 students we will not report the range of scores. No student received any marks within the ‘Does Not Meet Expectations’ category; all other marks were ‘Meets Base Expectations’ or above.

## 6. Student Learning Outcome #3

Graduate students will be able to communicate effectively in a) oral and b) written form.

### A. Oral Communication (rubric at end of report)

- Both students had the oral communication rubric returned by at least 1 committee members (a range of 1 to 4 committee members scored each student). The average score for the oral communication rubric was 3.5. Neither student received marks within the ‘Does Not Meet Expectations’ category; all other marks were ‘Meets Base Expectations’ or above. Both of the students were scored on the overall assessment as Meets Expectations Well or higher by all reviewers.

### B. Written Communication (rubric at end of report)

- Both students had the written communication rubric returned by at least 1 committee members (a range of 1 to 4 committee members scored each student). The average score for the written communication rubric was 3.0. All marks on this rubric were ‘Meets Base Expectations’ or above. A single reviewer rated a student overall as “Meets base expectations”, other reviewers for both of the students scored them on the overall assessment as Meets Expectations Well or higher.

*Note: For all data, scores for each student (if multiple rubrics were submitted) were averaged; then all students were averaged for the reported scores.*

## 2. Overall Recommendations

- Rubrics for assessing the Student Learning Outcomes #2 and #3 are in use and now continued emphasis must be placed on completing them at the conclusion of defenses. The intention is for each committee member to complete the forms, not just the mentor.

## 3. Action Plan

- The Department’s Administrative Assistant has digital copies of the rubrics that will be used to report Learning Outcomes 2 and/or 3 next year. Multiple copies of these rubrics will continue to be handed to major professors at the start of each defense. A reminder that each committee member is to complete them will be given.

- Faculty will continue to mentor Ph.D. candidates as they have successfully done in previous years.
- As of the completion of this report, both Ph.D. students have obtained jobs in Higher Education.

<b>Attribute for ORAL</b>	<b>Does Not Meet Expectations</b> Provide a short explanation for each attribute that you select in this category (Equivalent to Benchmark =1 on ANSC Undergraduate Rubric)	<b>Meets Base Expectations</b> (Equivalent to Milestone = 2 on ANSC Undergraduate Rubric)	<b>Meets Expectations Well</b> Results BETWEEN a basic meeting of expectations and exceeding expectations (Equivalent to Milestone = 3 on ANSC Undergraduate Rubric)	<b>Exceeds Expectations</b> (Equivalent to Capstone = 4 on ANSC Undergraduate Rubric)
<b>Overall quality of presentation</b>	<input type="checkbox"/> Poorly organized	<input type="checkbox"/> Clearly organized	<input type="checkbox"/> Clearly organized	<input type="checkbox"/> Well organized (introduction, conclusion, sequenced material in the body, transitions)
	<input type="checkbox"/> Poor presentation	<input type="checkbox"/> Clear presentation	<input type="checkbox"/> Clearer presentation	<input type="checkbox"/> Professional presentation
	<input type="checkbox"/> Poor communication skills	<input type="checkbox"/> Good communication skills	<input type="checkbox"/> Better communication skills	<input type="checkbox"/> Excellent communication skills
	<input type="checkbox"/> Slides and handouts difficult to read	<input type="checkbox"/> Slides and handouts clear	<input type="checkbox"/> Slides and handouts good	<input type="checkbox"/> Slides and handouts outstanding
<b>Overall breadth of knowledge</b>	<input type="checkbox"/> Presentation unacceptable	<input type="checkbox"/> Presentation acceptable	<input type="checkbox"/> Presentation good	<input type="checkbox"/> Presentation superior
	<input type="checkbox"/> Presentation reveals critical weakness in depth of knowledge in subject matter	<input type="checkbox"/> Presentation reveals some depth of knowledge in subject matter	<input type="checkbox"/> Presentation reveals adequate depth of knowledge in subject matter	<input type="checkbox"/> Presentation reveals exceptional depth of subject knowledge
	<input type="checkbox"/> Presentation does not reflect well developed critical thinking skills	<input type="checkbox"/> Presentation reveals average critical thinking skills	<input type="checkbox"/> Presentation reveals above average critical thinking skills	<input type="checkbox"/> Presentation reveals well developed critical thinking skills
