The Honors College Path Program is a new initiative that prepares exceptional high school students from underrepresented populations to excel at the University of Arkansas. Once here on campus, we will pair you with peer and professional mentors who will help you make the most of your college experience.

The Path Program encourages academic success and leadership development for each student. Our students have secured internships and participated in leadership experiences on campus and beyond:

"I received funding for the Society of Hispanic Professional Engineers National Conference, where I was able to network with top-tier companies. Thanks to that opportunity, I'll be interning for L'Oreal in Operations Manufacturing in Little Rock this summer." — *Iliana Hernandez, chemical engineering*

We will help you explore opportunities to:

- Secure scholarships and financial aid
- Study abroad
- Conduct undergraduate research
- Engage in service learning

- Get involved in campus leadership

This program is sponsored by the Honors College and participation is limited.

Interested? For more information about the Path Program and current student experiences [visit the Honors College blog](#).
